Coloured Pencils is a medium everyone has tried sometime in their life, but not everyone is aware of its amazing possibilities.

In this class of eight weeks, we are going to learn all about using coloured pencils. We will focus on different techniques especially layering and blending coloured pencils. This is a fundamental technique every artist should master if they want to be successful with this medium. It is a “must-know” technique.

You will learn about the different coloured pencils, which ones are more successful than others. We will work on several different types of papers.

Workshop fee does include a variety of different paper that we will use.

Suitable for Beginners (over 16 years)
